

# CAN WE HELP YOU WITH STREAMING?

CLICK HERE TO SEE OUR VIDEO

“ IT’S NO SECRET THAT STREAMING IS BECOMING A NECESSARY PART OF DOING BUSINESS IN TODAY’S ORGANISATION. ”

Think of the valuable information you create for your events; doesn't it deserve to be seen by as many audience members as possible and have a life expectancy of longer than the event itself? CMS provides a service team to stream events of all types, as well as manage on-demand content.

## INTERNAL

Agile work teams are becoming the norm, so it makes sense to use streaming for geographically dispersed teams. It will lower costs associated with travel and produce more immediate results, it reduces time, effort and your environmental footprint. Consider it for stand-ups, training, product introductions, any event you want your whole team to be part of.

## EXTERNAL

Streaming allows you to connect with your stakeholders anywhere in the world. It broadens your audience and extends your reach and opens up new markets. You can listen and respond to them in real time. Consider applying streaming to marketing events, education, CPD training, Q&A, conventions, conference sessions, expos, customer service and support, media launches, AGMs, any special event.
